## INT. LANDESLAGER DER SALZBURGER PFADFINDER UND PFADFINDERINNEN 3. - 13. AUGUST 2014 – BAD HOFGASTEIN

### Programmtage

#### The Day of good turn

Many people know the old devise of the scouts, to „do a good turn daily“. Though this sounds just like a positive cliché tot he most, we want to animate this motto for one day. On one of the four workshop days the Caravelles and Explorer dedicate their time and power this slogan. Across the camp site and throughout the Gastein valley and the closer region, the Scouts attend different projects to do good to the community and environment. We will work and spend time on different projects and will meet people of different origin and generations. The assignment takes place at the camp depending on age and abilities.

#### 1 day workshop

You can choose from many interesting workshops which last an entire day. If you are really interested in more than one thing you can also choose half-day workshops, which means you can do two different workshops on one day.

Did you know, for example, that already 2000 years ago there was gold discovered in the Upper Tauern? On an interesting tracking trace you can discover a lot of interesting things. But maybe you would like to go rock climbing or find the path of the sword? If you prefer less physical exertion, then you can actively take part in the camp newspaper newspaper or learn some practical handles to heal yourself ... You see, our range is large – we are sure you find the right workshop for you.

You will get additional information about your workshot at "the embers" on the previous day.

#### Flying sparks – 2 day workshop

With this two day workshop we want to give you the opportunity to leave the camp and go on adventures. You will be exploring the Gastein valley in your patrol for two days and spend the night outside of the campground. For all groups that do not come from Salzburg, it is possible to get to know the capital a little closer and spend the days in Salzburg.

In the mail you will find a registration form, with which you can register for your favorite workshop.

### Venture „Green Spark“

We ALL have a duty: "Leave this world a little better then you found it." (Baden Powell) Pass on the "green sparks" and take part in the Wurzl '14-Challenge: "Green spark" . We offer you the chance to start your own challenge on Wurzl'14. For the purposes of the camp 's motto is your challenge should deal with sustainability. Here we would like for you offer some suggestions in advance. Tests such as your ecological footprint or considering how much food you throw away a year.

**If you like then at the camp itself just look around , you will discover many more inputs !**

How to:

1. Gather your ideas (perhaps in advance) which challenge could inspire you.
2. Agree on something and decide for a theme
3. Report to the "subcamp-tent" (latest possibility: August 4th, 2014 )
4. Plan! Now you come into the exciting phase – planning (For questions , material requirements , etc. you is the step bearing team available )

6. Set in scene! Anyone who wants to can his challenge in the evening of the 10th August (Visitor's Day) to introduce the other CaEx and visitors.
7. Now celebrate ! Each challenge should be celebrated.

### Offers an Events

Apart from the program there are some additional offers and events in the CaEx camp:

#### Embers

Here you will find both the program team and the camp team. Whether small or big concerns - we are there for you! We inform you about the program activities, weather forecasts etc. and are the contact point for found and lost items...

#### Wurzl-building

The Wurzl – building is a playground and meeting place which is available for all camp participants during the entire camp and you can help to shape it. Here you can run free and only contribute with wood and string part to the large Wurzl construction of your creativity.

#### Crackling Lounge

A meeting place for CaEx ! Here you have the opportunity to spend a nice evening with your friends or meet new people.

A special event in the Crackling Lounge is the Fete bleu. In the sign of the CaEx colour we want to arrange a party. The dress code is - of course - BLUE. This event will take place on 5th and 8th August.

#### Celebrating on fire

At the CaEx camp we have four fireplaces. You are welcomed to use them and contribute to the evening program yourself: with guitars and vocals, jokes, stories .. everything is welcomed.

#### Green Energy

You have no battery in your phone anymore? Roll up your sleeves, get on the bike and pedal as fast as you can.

#### Fireday for scoutleaders

Not only the CaEx need a place to be on their own and relax, also the scoutleaders should have a place like this – so we created one: to chat, recharge your batteries and relax.
